REVIEWER COMMENTS	
	<p>We have used the Hopkins Homes for over 20 years. They are willing to take persons refused by other homes due to criminal history, prison or jail time and psychiatric symptoms/behaviors. We have used them in the past year for 3 men no one would touch due to their past and present circumstances. For all 3 men these placements continue to be successful who have been placed in the past few year. We will continue to use these homes specifically for their skills in managing and living with these behaviors. The consumers did not complain at all about these placements as they are understanding through treatment that their behaviors require the placements leading to current stability.</p>
